

Madison Math Circle

Run by UW Math Department

Mondays 6-7pm in 120 Ingraham Hall

The Madison Math Circle gives middle school and high school students a taste of interesting ideas in math and science. Past presentations have discussed plasma and weather in outer space, the game Set and finite geometry, and the mathematics of juggling.

New students are welcome at any point throughout the year. Each week, we have a new presenter who starts fresh. Free pizza!

For directions, parking, or more info, visit: math.wisc.edu/mathcircle/
or email Daniel Erman and Phil Matchett Wood at (math-circle-organizers@math.wisc.edu)

This is not a school-sponsored activity and the Madison Metropolitan School District does not approve, support, supervise or endorse this program/activity.
